This touring age offers an amazing op-portunity for the people to study the early architecture of Ontario and Quobee and the Maritime Provinces. A wealth of inter-est is being rapidly brought to the atten-tion of the people. Houses which a few est is being rapidly brought to the atten-tion of the people. Houses which a few years ago may not have attracted attention to any unusual degree today are looked upon as models of pioneer buildings.

C. Arthur. It is fully illustrated with photographs of buildings in this province. Prof. John Alford of the Fine Art Department at the Ulliversity of Toronto in a foreword says "the buildings to which attention is drawn in the following page represent not only the first cultural tradition of Upper Canada, but the last active the control of the contr

Western Civilization for more than three centuries—a tradition, whose tap-root and first-fruit are in ancient Greece and Rome. Prof. Alford refers to the fact that Up-per Canada was first settled at a time when the cultural-tradition of western civ-ilization was on the verge of fundamental ideas inherited through the renaisance from Greece and Rome were in process of disinteration under the pressure of now disintegration under the pressure of new disintegration under the pressure of now economic forces. Nothing has yet taken their place in Canada, United States or Europe. "Today the contemporary Canad-ian city became (as it is) a hotchpotch of hits and patches and of unrelated and de-generate styles." Prof. Alford sees the architecture of tomorrow as easily distin-guished from that of the 1820's but more comparable in its fundamentals, to what comparable in its fundamentals, to what is presented in this volume than to any series of buildings which have arisen during the past hundred years.

Professor Eric C. Arthur of the Depart-

ment of Architectural desgn at Toronto University, says by the title he refers to buildings erected from the beginnings of the settlement of this province down to about 1840, that is, in the pioneer period. This period was succeeded by one of poorer designs, to which the rapid growth of cities contributed. Fortunately enough of the older work has survived to provide an

the older work has survived to provide an opportunity for study.

The largest groups of good early houses are to be found in the carliest settled pur-tions of Ontario, along the Kingston Road from Lancaster to Hamilton. The Kingston. Brockville, Prescott, Cobourg, Prince Edward County, Niagara Peninsula areas have provided hundreds of examples of buildings. For instance Osgoode Hall re-mains as the finest of public buildings in Toronto Towns like Porth and Port Hope or villages like Niagara-on-the-Lake and Maitland provide more examples of such buildings than Toronto, Hamilton and Lon-

buildings than Toronto, Hamilton and Lon-don together. The Barnum House at Graf-ton is illustrated as an excellent example. Dressed stone as employed in Fort Henry was used almost exclusively in older days in military buildings. Prof. Arthur deals with the characterist-

Frof. Arthur deals with the characteristics of the carty Ontario house, with doorways and windows as features in design. The book is illustrated in photographs and plaus and should have a wide circulation among teachers, architects and those who are and should be interested in the architectural horitage which is ours.

It sells at fifty cents.

VIEWS OF U.S. PAPERS ON CRISIS

Opinion of countries outside of Europe as to the present critical state of affairs in as to the present critical state of affairs in Middle Europe is, interesting at this time. Vesterday the New York Times spoke of all signs as pointing to a "consolidation of the forces working for peace," Another paper, The New York Dally News on the same day in an editorial prophesics that "if Germany darts another war she'll get licked again." This latter paper says that it the case of war, "the British navy contains the property of the pro no German boat would be able to enter or leave the North Sea with supplies for Ger-many. If Italy should enter such a war, no Italian boat would be able to leave the Mediterranean through Gibraltar or Suez.

SERGEANT MURPHY

THE AVERAGE MOVIE-GOER SPEAKS HIS MIND...

TS HARD for a fellow like me who thinks apple pie is one of nature's greatest gifts to man to believe that there are folks who honestly don't like it at all.

On the other hand, I can't abide liver and bacon though I know it's highly regarded by many.

We all have our likes and our dislikes. We're all different - thanks be! A dull world it would be if we

That's why I say that the most remarkable thing about motion pictures is that they hit such a high average of pleasure-giving.

Take any individual picture and you'll find that most people who see it will get a lot of enjoyment out of it.

Not all, naturally. For example, I think a certain star is tops - while, to hear the way my next-door neighbor goes on about her, you'd think she wasn't good enough to be an "extra".

Or my wife sees a picture during the afternoon and raves about it at dinner. Maybe son and I take it in that evening - and come home feeling that Mother is losing her judgment. And there you are. It's the apple pie situation all over again.

But, taking them all together, I figure that the "movies" give more pleasure to more people at a lot less cost than most anything the mind of man was ever responsible for - and have done the human race more downright good than all the medicines concocted since

And I'll say this: The times when I've been disappointed in a picture have been a lot fewer than the other times when I've gone to see one I wasn't especially excited about in advance and been mighty glad I did.

Sure, I criticize the pictures. I pay my money and that's my right. As a matter of fact, I kind of figure that

it's the criticism of average folks like me that's largely responsible for the pictures getting better and better all the time.

Through the years the motion picture has given its public countless hours of entertainment, countless hours of escape from harsh reality. It has taken millions away from trouble and sorrow, lightening their burdens and brightening their lives . . . making the world a better, happier place to live in.

It has grown - from "cowboys and Indians" to dramatizations of the works of the world's greatest authors...from temperamental flickers to technical perfection... from infancy to an intelligent maturity.

To provide the finest array of productions ever released the Motion Picture Industry has mobilized all its skill, all its imagination, all its resources to provide the greatest array of productions ever released.

Great stories splendidly produced . . . love-filled romance, stirring drama, gay adventure, hilarious comedy, tuneful musicals - star-studded casts filled with your favorites and new faces, new talents, for which the world has been searched. One after another these great pictures are coming to your favorite theatre.

Entertainment, relaxation, freedom from care are yours in overflowing measure, brought to you by the supreme efforts of the Motion Picture Industry to make this fall season one you will never forget.

Here's a WORD

. . . From the Boss

It would probably take me months to contact each of you in the way I would like, so I am using this method to tell you something. I sincerely want you to know. It's about a motion picture which is so good that one, and only one, word will describe its entertainment

"PRICELESS"

The picture is called "Sing You Sinners." The title doesn't mean anything . . . now. Neither did the title of "It Hoppened One Night" and "The Awful Truth" until people had seen them and started talking about

Well, the talk about those pictures was a mere whisper to what you and everybody else will be saying about "Sing You Sinners." It is positively one of the wit-riest pictures I have ever seen! . . and of all the films Fred MacMurray and Bing Crosby have made, this one is the tops.

Last week, while in Toronto, I was privileged to witness a private screening of this upractious romantic comedy and I was so impressed with its merits, I lost no time in booking it as the Belle Labor Day attraction. In conclusion, I can only say that I personally assure each and every one of our Belle patrons that they will thoroughly enjoy every minute of this picture.

SCHOOL AGAIN

Boys and girls go to school next Tues day and begin or resume that unique ex-perience in life; which they never know again once they have grown up to the age when they leave school,

No institution can take the place of the little red schoolhouse of the country or the pretentious modern structure which houses the boys and girls of large towns and cities. School follows on the first years of homelife where the child is under the mother's care and gentle instruction. There the imitative instinct is at its earliest and best and it is said that at this for-

jest and best and it is said that at this formative period of life, the greatest influences are exerted which indicate fairly need to be a second of life, the child is to lead. But from the circle of the home, the child's to lead. But from the circle of the home, the child's to lead to being assantiate for the people-unit after the Capitivity, education being before that time considered a family affair and the fa-ther as teacher. Passing over the schools of Sparta and Athens with characteristics of Sparta and Athens with characteristics as different as the characters of the populations, one comes to the early Roman republic where the father and mother were generally, the teachers. Greek influence brought schools which young Romans attended and instruction was in the three Rs in the control of the

tended and instruction was in the three K's
at first for the young and higher subjects
were taught as the boy grew.
Christianity instituted schools for instruction of the young in the Christian
faith and the cultural side it is declared faith and the cultural side it is declared was scarcely regarded, because of antag-onism to the literature of the period, sat-urated with paganism. As Christianity graw, the old pagan schools died out and religious schools took their place, and the curiculum was widened to cover the liberall arts. There was also education of a knightly character for training in the pro-fession of arms, and there was training in guild schools.

Up through the ages has developed a

Up through the ages has developed a graduated system of education from early childhood to maturity. The kindergarten has under the complexity of modern life assumed a portion of the work of the home before school coluration really begins. Today education and the schools form the chief-service in the state because training provides the preparation for life. Thesely into the hundreds upon hundreds of schools will go many thousands. The state of the schools will go many thousands more mature instruction. These boys and girls are receiving in modern form and content what boys and girls of other ages received with change adopted to suit modern life and its demands. rn life and its demands.

will they not wnt to assert their authority wear tae pants inguratively, and officially, will they not want to assert their authority more and in a manner not to the liking of the men folks? If the skirts are wiped out away goes the badge of, shall we say, ser-vitude, with women taking front rank in vitude, with women taking front rank in the pants parade with most of the men folks bringing up the rear. Why, Grandma never woro man's pants even when she was doing the ploughing. But, say the women, we don't wear pants, we wear "alacks"—pants by any other namo, etc. So the women have got into slacks—well soon meet em coming back. However, "shorts" are infinitely worse by a yard or "shorts" are infinitely worse by a yard or

One Way of Reminding Them It's Coming

School Opens Tuesday, September 6th.

LET THE ADS
HELP YOU
GET READY!

i i

Heigh-ho; heigh-ho; it's back to school we go! And now is the time to get your youngsters ready! New clothes, new shoes — they'll need these. Perhaps new glasses, too. Now is the time, also, to get their last winter's things in order, mended, altered and dry cleaned. There's bright new luggage to buy for the boy or girl who is going away to school (get the best — first appearances are so important). The young miss on her way to boarding school or college will want a lovely permanent, toilet articles, book ends, pictures for her froom. Bill, off to university, will want a brief case, a fountain pen, a portable typewriter, a radio.

Back to school! It's a thrilling time of getting ready and Belleville stores are just loaded with things they'll need. Don't delay . . . read the ads in The Ontario Intelligencer; take advantage of time and low prices to make your selections

ASPIRATIONS

I began the day with a high resolve Some service for Him to do, A valorous deed to fill men's hearts With a purpose, sublime and true; And I looked about for some mighty task My Mastigr's protes to bring — A sermon grand to stir men's souls, A song that was mine to sing.

Then there came to my door a little child From my neighbor's across the way— A little one with tear-stained face. And wind-tossed curls at play, I bound up her nigured hand, and then Brushed kindly the tousled head, And in the midst of my petty task. My grand resolves had fled.

ent about my daily tasks

When I heard a timid knock, And there at my door stood a poor blind man.
The sight gave a painful shock,
He was weary and footsore and travelstained

And I gave him food and rest, And I forgot the great things I had planned

In the cares that the day infest.

At night, all weary and worn with care,
I came to my Lord in prayer,
And I told of the failures the day had

wrought,
For nothing of worth was there;
But a still small voice spoke to my soul
As plain as plain could be—
Ye have done it unto these
Ye have done it unto Me."

fore the pupil and student population. Psychology has influenced modern educa-tion so that the appeal is made in the most impressive channel to the mind of the young. The pupil of today in the western hemis-phere lives in a favored world, whatever takes place in the international political world, where there is a sense of frustration and pessimism, but in the student's and schol-ar's world, there are optimism, hope and ex-

LABOR DAY

Labor Day has passed. In smaller centres the day was mainly a holiday, without a labor the day was mainly a holiday, without a labor celebration but in larger centres it was marked by parades of labor organizations. The holiday was inaugurated in 1882 by the Knights of Labor, but it was the year 1894 before the day became a holiday in the United

before the day become a holiday in the United Stetes and Canada.

**Labor has progressed during the fifty and more years since the day was declared by the Knights of Lobor and legislation of a highly social boncter is on the statute books of a number of countries.

**Taday it is recognized that everyone who creates by work is a loborer, whether he behavior, business mon, the housewise in the home, the girl in the shop or office, the mon and the woman in the factory, and the woman of the woman o every person belongs to this all-inclusive

cioss.

As to disputes of employees and employers, Canada is in a fortunate state. There
are very few major disputes and social legislation in Ontario has gone a long way.

DENMARK'S FARMERS CELEBRATE

In 1788 the peasants of Denmark wan their freedom from the old system of villein-oge under which they were little better than workers for the great land-owners. This year the farmers and all other citizens are celebrating the 150 years of liberty and discussing with justifioble pride the progress that has been made in the century and a half. ing with justifiable pride the progress hard has been mode in the century ord a roll. The Market Place of Industry

the simple needs of each community when the industries of Canada began, Customers were all friends or neighbours. The ability and integrity of every craftsman were well-known and created a demand for the commodities he made; his success was measured by the goodwill he enjoyed.

Communities grew and prospered; new settle ments were established and thrived; the demand for manufactured products rapidly increased. Distant markets became accessible as transportation facilities improved. The scope of industry widened goods were shipped farther and farther from every plant, and it became necessary to gain goodwill towards products and their makers in remote towns and villages where they were unknown.

The newspapers have provided this vital service to Canadian industry at every stage of its development. No other medium could ensure the frequent, establish confidence, or afford effective territorial control of merchandising activity, when local or iational emergancies arose.

Anday the manufacturing industries of Canada te a national market; their products are on sale from coast to coast. Production has been central-ized, distribution systems organized, but the success of every enterprise still depends on customer goodwill.

Therefore, progressive companies continue to the local daily newspapers as an integral part of merchandising. Experience has proved that the daily newspapers of Canada, bought and read by more than two million families every day, provide the most economical and effective means whereby any industry can create public confidence in its policies and profitable demand for its products.

THE COUNTRY IS CALLING

From Belleville good roads reach out in every direction leading to the great open spaces, the finest of scenery, the best of fishing and hunting in season. Over the Hills of Hastings lie thrills in which romance and reality join to make the most enjoyable of outings. Reminiscences of old time gold rushes can be heard from the Oldest Inhabitant in the villages, mineral indications can be seen everywhere, for this county has more and varied mineral deposits than any other section of Canada of similar area, Hills and valleys, lakes and rivers, big and little, abound with splendid roads winding in and out, ever opening to new scenic beauties revealing an endless panorama of marvelous scenic

south Prince Edward County, rightly called "The Garden of the Gods," invites admirers of beautiful scenery, well tilled farms, agriculture in all its phases, and spendid fishing, Belleville's excellent hotels make splendid headquarters for visiting motorists who spend the days in the country in the most beautiful surroundings and return each night to Belleville if desired. Belleville citizens should spread the glad tidings of this great playground of Nature of which this city is the centre. Let their friends near and far know that a vacation can be spent pleasantly and profitably here. You can entertain your summer visitors grandly if you know the best places to take them. MORE THAN ANYBODY FLSE

It is undeniably true that every dollar the matorist invests in repairs and replacements on his car brings him values far greater than the amount paid.

Automobiles are judged by their weakest points, The failure of a single minor part often is sufficient to produce a chain of deficiencies in performance, excessive cost of operation, uncomfortable, unsafe, motoring, and in the end a big repair bill or a condemned car.

Bring your car to a service shop that really makes a specialty of such work. Here is complete up-to-date equipment, expert, conscientious workmen and a policy of management that is fully responsible for every detail of the work done.

Let us help you keep the investment value, good performance, safety, and riding comfort of your car unimpaired.

HOLLAND'S QUEEN CELEBRATES

Queen of the Netherlands as ruler for forty years, Wilhelmina has been celebrating her reign, her subjects joining in jubilation with this great monarch, the longest in the present age to sit upon a throne in this storm-tossed world. The peaceful land of Holland wins the congratulation of the democracies of the world of which it is one of the finest developments to be seen in modern civilization. The people of the Netherlands who have shown them-selves among the best citizens of any coun-try are also among the best of immigrants try are also among the best of immigrants in any country. By such proofs the Dutchman indicates his solid worth as a citizen

man indicates his solid worth as a cilizen wherever he is found.

Who does not remember the story in the schoolbook of little Peter who saved the dike on one occasion and whose memory is assured "as long as the dikes of foliand divide the land from the sea." This is the strain which runs through the political and economic life of Holland and the strain which runs through the political said strain is indicated in the mount of critical land with vasted in the mount of critical land with vasted in the combination has made of them one of the greatest of the smaller

nations.

Holland has a vast empire, far beyond the dreams of the people of old who were the forbears of the present Hollanders.

It is no wonder that Holland rejoices in

the reign of their Queen in a day when there are celebrations of so many other kinds. The Dutch have a good reason to rejoice. Readers of history know how powerful a force the Dutch people were cen-turies ago, when their fleet vied with the English fleet in many a well-fought battle.

unres ago, when their neet you wan tenging field field in English fleet in many a well-fourth shalled. Their country is made and yet has had of the state of the state. In the thirteenth century thousands of villages were destroyed and the goography of the Netherlands digtory—dby an inundation from the North/Sea. Recovery of some of the land lost to the state of the Zuider Zee and recover 800,000 acres of land. The cost will be about two hundred millions of dollars.

d millions of dollars.

One of the attractions of modern Holland is that of the preservation of man-ners, costumes, and traditions by the Neth-

standers.

Queen Wilhelmins came to the throne at the ago of ten years in 1890, her mother acting as regent until alse was eighteen years of age, when she was crowned. The Queen was the last surviving member of the thousand-year-old family of Orange-massau, which receated the Nettherlands as an independent realm. Across the cutterfunds there has been also that Holland is a first of the property of the control of the contro spirit of the people and their aspirations. Coal production has been increased from 300,000 tons to 13,000,000 tons, shipping tonnage has multiplied sixfold, working hours have been reduced and housing conditions gen-erally improved. The housing projects, in fact, have made The Netherlands an alfact, have made The Netherlands an almost slumless country. In the 10,000-mile air service to Batavia in the East Indies, Netherlands aviation produced the first and one of the most successful of the many long-distance services which now girdle the

Queen Wilhelmina has held her land's welfare as of paramount importance, and her rule has been benign. It is no wonder the people of this land, "the lower lands" are proud of the royal line which she rep-resents and of their native land and its farflung colonies.

Troubles spring from idleness, and grievous toils from needless ease; many without labor would live by their own wits only, but they break for want of stock.— Benjamin Franklin.

GERALDTON, IN THE LONG LAC DIS-GERALDTON, IN THE LONG LAC DISTRICT, up For Arthar way, has just celebrated its first birthday as a municipality, and the Fort Arthar New-Chronicle celebrated the event with a very interesting illustrated special Geraldton Edition.

Geraldton has a school with seventy pupils and recently floated bonds for \$15,000 for an addition to the school. Ground has have before for a theatten in set \$900. has been broken for a theatre to seat 900, which is estimated to cost \$70,000. Ger-aldton is surrounded by a number of comparatively new operating mines, has a population of more than 2,000 and a number of progressive businessmen. A water system has been installed and the town is tem has been installed and the town is stepping right along on more improved methods than mining towns of the past were wint to employ. Cobali, for instance, were which way, and was a monstrosity of crooked streets, shacks and blind pigs, until the citizens became more domesticat-ed and found time to think of something bendes bloom and silver in leaf, rungrets, the company of the company of the company of the rock, naturally was not inviting as a resirock, naturally was not inviting as a residential area, and North Cobalt and Haileybury early received preference for home purposes. Canada welcomes infant town of Geraldton, may its foundations of gold long preserve it as a progressive and growing community.

your entertainment that an army of the s greatest talents is ever on the march, forgahead to open new vistas for your delight adding brilliant new recruits from all the arts every day in the year.

Spare nothing, says Hollywood, to make the motion picture theatre the happy haven it is, the place to which millions may confidently come for freedom from boredom and care . . . for suspense that makes the pulse beat faster...for romance that warms the heart ... for hearty laughter and eve-filling beauty.

The unseen hands applaud - and we who make motion pictures hear the echo. It guides us, inspires us, challenges us to fresh endeavors to make the movies better and better.

Now - on the eve of the Golden Jubilee of motion pictures - there is ready for you a remarkable array of new productions - the finest, we feel, that have ever been presented in a single season. On them we have lavished all our skill, all our experience, all our resources.

Here are pictures to charm and to thrill - pictures to amaze and amuse - pictures destined to weave their magic about the hearts and the minds of millions of people - to lighten their labor and brighten their lives, to lift them out of the drab, workaday world into a new world of wonder timeless and boundless.

See them - give yourself up to their spell relax and let them work their magic. They are a' tonic for your mind and your heart - they are good for what ails you.

News ever has been the forerunner of progress. Civilization advanced, industry developed, trade and commerce expanded as facilities for circulating news improved.

When John Bushell published the first Canadian newspaper at Halifax in 1752 the inns and coffee houses of the scattered Canadian settlements were the principal sources of news. There the pioneers foregathered to gossip about personal and community affairs and to discuss the problems of their trades. Anyone unable to attend knew little or nothing of events beyond his immediate environment.

Bushell proposed to print the news and make it available to all. The first issue of his Halifax Gazette was a single sheet of paper printed on both sides. It contained a publisher's foreword, a few items of local interest, some foreign and three advertisements. Modest as the venture was, it expressed an

ideal of public service which endured. Soon newspapers were established in other

communities. Constantly this service has been extended until now the daily newspapers of Canada bring to every citizen the latest news of people, events and achievements in all parts of the world.

The first Canadian newspaper had seventy-two subscribers; today in more than two million homes throughout the country at least one daily newspaper is read:

Without this day-to-day record of social, economic and political affairs at home and abroad, progress would be retarded and the welfare of the individual and the nation seriously impaired.

IN EUROPE

Back in 1918 those who drew up the Breaty of Versailles could not have foreseen the rapid change from the defeated Germany to an armed land which makes the world anxious. But into the twenty indicates the second of the second hhe world anxious. But into the extra mind years between thos, when me in mind were too near, and now when a Suns were too near, and now when a Suns week of the sense of danger, much has been crowded, Germany took to arming without arousing the suspicious of the nations which were depending upon the League of Nationa and it was only when the Japanese and the Italian situation arousing the supplies of the National peace saw a menace and started to rearm. nately not too late, they believe

No man at Versailles in 1919 could have imagined a Germany for the past two or three years causing so much anxiety. The Germany they knew was crippled, the Germany 1938 feels is not a cripple, though her natural resources have been estimated to be below what she has herself rated. Into that nineteen years went many

movements, many schemes, which went wrong or are today bringing their harvest. Today it seems very clear that Germany aims at a great empire in Europe and wherever else she can secure it. She put over the militarization of the Rhine and over the militarization of the Rhine and then carried out the successful Austrian anschluss which at last thoroughly stirred the nations. Today the nations are still at peace, but stand on guard back of the Ger-man and Czechoslovakian frontiers. The democratic nations appear to realize that the time of a showdown has come. As pub-lic men have said, it is Hitler who has the say whether there will be war or not. If he is by some means baffled on the Czechoslovakian issue, few persons can see him set-tling back satisfied with the defeat of his aim to build up a great power along the Danube.

The persistence with which attention is rivetted in the German press on socalled outrages on minority citizens in Czechoslovakia seems to show the plan which is in the German mind. In Central Europe the German has a fertile field to try out his policy which is costing the rest of the

world much anxiety.

Some see hopeful signs that the minority
dispute will be settled without recourse to dispute will be settled without recourse to arms. Others are not so favorably impress-ed. If the trouble appears to die down, they wonder what next will develop. With the generality of people it is hope and guessing, while with the diplomats it

NAVY CUT CIGARETTES

With 64 years of experience, we know that it requires men of high type to succeed in the life insurance business, and we will accept no other-Furthermore we know what men must do in order to achieve success, and extensive training is provided.

It is significant that the London Life's business has been increasing steadily and that gains have been made each year even during the depression. This indicates both efficiency on the part of our representatives and public approval of our adherence to the principle of supplying low cost life insurance.

LIGHT IN THE SCHOOLHOUSE

"Teacher's working late tonight," they used to say if they saw a light in the school-house atter 5 o'clock. But not now. More and more the ever-lighted schoolhouse is becoming a fact, as new communities brighten to the realization that, as an af-

brighten to the realization that, as an star-bours enter for adult cultural and so-cial activities, it offers the finest opportunities, says the Rotarian Magazine. Folk schools of countries like Denmark, where grown-spo often continuo their classified of the starting of for recreation, entertainment, self-improve-

building is open five nights a week except during Summer. There is no attempt to formalize the school's open house. Half a dozen farm organizations hold their meetings in the schoolhouse. For the rest, meetings in the achoolhouse. For the rest, people come, as to a reunion, to meet friends, to play games, to take part in plays and concerts, or to listen in them, to hear lectures, to play bridge, table tensies, backbull. Townsmen segrely give side denoted who, during his superintendency of the school, won for his plan the support of a progressive school board—and a place in the budget for lights, heat, and abover baths. No one, truth to tell, modeled to be "sold" the everlighted and beautiful the support of a progressive school board—and a place in "sold" the everlighted of the support of a progressive school board—and a place in "sold" the everlighted of the support of the sold that the support of the s

of how a community may be vivified by naving a common focusing point for neigh-porty activities and interests. The school it-

alwing a collimon decision point, not leading a collimon decision point that can not be not all that can not life. There has been only one trancy in seven years. The school band of 100 pieces (the school's total envolument is 150) has been heard in Kansas (ity, Missouri, and Chicago. Every boy physically able plays in intramural sports. The world sponds billions on education. In the United States parents support a billion of both collimon deline educational plant. The lugis investment in every community can and should be made to yield a richer life for held and young alties. The light in the schoolhouse may point the way.

HE WAS NOT HELPING

Men are somewhat given to telling about ventures they have made and losses they have setained. We listened to a much of the Canadian West; it was appeared he had a personal grude against that country as though it had taken a bite out of him. How are certain people from the east would take no acceptance of the country as though the cast would take no be the cast would be the cast wo

they had done so in other years and were sorry for it, asy Brockville Times Recorder. His complaint was like this:

"The West is like a good many other places; it needs capital for development purposes, but it was not fair with those who were ready to supply the capital some years ago. I know what it am talking about because I made invostments there. That was the time when there was a land boom and either were growing. I was dealing and slore with several friends nurhased and slore with several friends nurhased and along with several friends purchased land just on the outskirts of one of the western cities. One of us took a trip out there and became convinced the land was right in line with the logical path of de-velopment and therefore it should increase

"I am not going to tell that long story all over again, but the truth is that land is still being used for farm purposes and by getting rid of it we managed to res-cue about 15 cents on each dollar of our investment. Never again would I put a dol-lar into anything in western Canada."

The Peterborough Examiner says it eels certain there are others who could ell a story somewhat similar, but a statement of that kind is worth analyzing. The man who was putting up his money to purchase property near a city was doing no-thing at all to develop that city or the west in general. His plan was plain as a pike-staff and so was his motive. He had reason as med day and try and purchase a pice of his property for the building of a home. The man who needed the building, tot would have to pay to the man who was holding it more than it cost him so there stred it would be found that the investor from the east was actually holding up de-velopment and building rather than enment of that kind is worth analyzing. The would be a profit. If the situation is well else to feed upon, it would be much more huseful distortions to be found that the investor from the east was actually holding up de-birth then of the them is to a life of misery, velopment and building rather than encouraging it. His interest was entirely in ord po hungry tenight offer they dies on this what he could take out of the west; the lost of size of the property which he expected to sell at 1 size interesting the most property which he expected to sell at 1 size interesting, even dumo, namely.

a profit did not mean a thing apart from drawing of some papers and a commission to an agent. He had done nothing toward what he called "developing the west."

to Honor Chief of SEELEY CLINIC

Beginning with a popular banquet on Saturday even-ing, September 17, the Town Council, Chamber of Commerce and citizens generally will honor Mahlon R. F. Seeley, a native son.

The Town of Morrisburg invites you to come to that event or come in the following week during which daily clinics will be held.

daily clinics will be near.

Almost incredible things are being dose by Mahlon Seeley due to his peculiar knowledge and uncampy skill in the treatment of arthritis and kindred ills. Stambling steps are being made firm and springry supplemess restored to pain-wrated joints; men supplement of the property of the proper

There are no instantaneous "cures" at the Seeley Clinic in Morriaburg, no emotionalism, no imaginary results secured through mole psychology. But there is the gradual improvement, the definite betterment, the eventual correction of the condition—turning many limping, loobbing patients into men and women who know again the joy of active pain free movement.

"There may seem to be a bitter irony in developing aironger and healthier child-ren in a world exposed to the most merciless kind of war, to war-bred diseases, perhaps to war-produced famine. But if we include mental health in the picture we can suppose that a well-nurtured race of children will grow up to do something for this troubled civilization of ours. Our worst troubles come from twisted thinking, and troubles come iron misted unkning, and there is certainly some connection between bodily health in childhood and mental. health in maturity. Europe's melancholy plight may be traced in part to the stuni-ing of physical and intellectual develop-ment among the generation born be-

tionship to the Dionne regime, and to the intelligence which that regime reflects, Dr. Dafo's great experiment demonstrates in part what is being done, in part what can be done, for children everywhere. And one may speculate as to whether a few more tonsillectomies, a little more milit, an increased arceding feeling of security in child-in the control of the contr

Moving Pictures Greatest Year win in clude Bigger and Better Pictures, the Most Brilliant Stars in the Brightest of Stories by the most talented authors.

The Greatest Year for the Box Office is The Greatest Year for the Box Office is one of the important parts of the campaign, but essentially the idea is to produce the Greatest Year of Salisfaction for Movie Patrons, with all that that implies at benefitting the industry generally.

Naturally the first move of the Movie Mogula was to consult specialists as to how best put the campaign over. The specialists without hesitation unanimously turned to the daily newpapers as the corner stone of the campaign. ONE MILLION DOLLARS the campaign. ONE MILLION DOLLARS WAS APPROPRIATED for daily newspaper publicity and the campaign was on.

One of the High Lights of the Campaign is a Quiz Contest with \$250,000 in prizes—a contest than which there never has been the like, Just imagine this array of

cash prizes: FIRST PRIZE-\$50,000.00

SECOND PRIZE—\$25,000.00 . TWO PRIZES OF \$10,000.00 Each. FIVE PRIZES OF \$5,000.00 Each. FIVE PRIZES OF \$2,000.00 Each. TEN PRIZES OF \$1,000.00 Each. FORTY PRIZES OF \$500.00 Each. FORTY PRIZES OF \$250.00 Each. THREE HUNDRED PRIZES OF \$100.00

FIVE HUNDRED PRIZES OF \$10.00

What more perfect example of the stu-pendous manner in which the Movie In-dustry goes at things—the campaign is not to be strangled by pinching prizes or by depending upon canned or pan-handled publicity. One million dollars goes into the pol right off the bat for nation-wide new-paper advertising, to which is added the expenditure of the local theatree partici-

Inasmuch as the Daily Newspaper is Insamuch as the Daily Newspaper is made the cornerstone of this colossal campaign the Daily Newspaper is intimately interested in its successful progress, and incidentally let us point to this campaign as a broad hint to other Big Business concerns, particularly Sport, including Pugi-lism, Wrestling, Basebali and Football, Professional and so-called Amateur, that the day of Free Newspaper Publicity is drawing to a close. The Daily Newspaper built up Pugilism to a Million Dollar Gate, and what did the newspapers get out Gate, and what did in newspapers get out of it—a few free passes for working journalists who would have preferred to be elsewhere and the privilege of paying for telegraph service from the ringside. daily climes will be early as a being done by Mahlon Seeley due to his peculiar knowledge and uncanny skill in the treatment of arthritis and kindred illa Stumbling steps are being made firm and springs; suppleases restored to pain-wacked joints; canes, crutches and wheel chairs forgotten by many as the halt and the lame walk again.

There are no instantaneous "cures" at the Seeley Clinic in Morriaburg, no emotionalism, no imaginary results secured through mob psychology. But there is the gradual improvement, the definite betterment, the eventual correction of the condition—turning many limping, lobbling patients into men and women who know again the joy of active pain free movement.

ugly situation is not much better than before. Whether action for the moment is just postponed until a more opportune time or until the radicals among the Sudetres stir up sufficient trouble that would justify ogressive action by Germany no one can tell but as long as Britain maintains her present position and her fleet in a strategic situa-position and her fleet in a strategic situaposition and her fleet in a strategic situa-tion then pooce will possibly pervail. So long as "The Gentlemen in London" let their stand be known in no uncertain terms then the ambitious scheme for a united central Europe under German control will be rend-ered ineffectual and the longer the delay on the Casch question the better will the British people be prepared to withstand the raveges

RURAL FAIRS

 Soon it will be the rural foirs holding the attention of the people. For the next month or so there will be these assem-bles from the countryside and the homlets and villages which have been held every year since the early days of the opening up of this

country.

Rural fairs to the agriculturist and his

country.

Rural fain to the agriculturist and his family have charms beyond measure and to the city-dealler from the country and the city-dealler from the satisfied. This is proven in this district where the rural exhibitions assemble crowds from country and town and the dwellers from off the farms. First, there is the weather for September has a charm and early Cotaber days have a possible or the country and the country and the country and the country and town and the deallers from off the farms. First, there is the weather for September has a charm and early Cotaber days have a country and the cou visitors. These and other reasons may explain why the rural fair maintains its hold. It is a parade of the year and it is one of the last spectacles of the passing year, or great rural festivals which mark the end of growth, the completion of the heavy task of the harvest and the finol preparations for the advent of and other reasons may explain

and the final preparations for the acress of the colder season.

Rural fairs have a difficult time at times because weather cannot always be trusted, but the agricultural society generally finds its way through for the fairs now existing howe had a long record.

Of course the fair entails a great deal of work in preparation, but like so many other the sentitude and one may not

work in preparation, but like so many other interests, labor is required and one may not always receive prizes. But the showing of ex-hibits is a cooperation without which the fairs could not exist. Prize winner and nonprize winner work together to make the fair.
The non-winner is inspired to improve.

see non-winner is inspired to improve.

One has only to go to one or more of these rural exhibitions to see the pride which the officers and directors and exhibitors take in their fair. That is something which ought not the left out of the count of the value of the exhibitions.

BRITONS REPEL INVASION

Tom Mix in cowboy regalia and leading his horse was allowed to land in England for a vaudeville tour, but the police took from him reight pistols and five rifles, on the ground that he had no import license. The incident is worth nating because it must have been the largest armed force that has tried to land on British soil since the last attempt of the Stu-arts about two hundred years ago.— New

GITTIN' ALONG

Yes, Ma and me are gittin' along, We're down now near the end, An' we'hev had some jolts an' jars As life's hills we'd descend; Sometimes the wood pile'd git quite law, Er somethin' else'd go wrong, But Ma would alwus say: "Don't mind,

An' sometimes work was little scarce, An' pretty hard to git,
But somethin' usually'd turn up,
We didn't man and sit;
Er mebby sickness next would come, Which was another prong, But spite of everythin' it seemed

Somehow we'll git along."

We alway out along. An' sometimes Ma might want a dress, An sometimes ma might would be a Er pair of bran' new shoes,
Twas funny how them things'd come,
An' scare away the blues;
An' when the children 'gin t' come,

(A reg'ler little throng,)
I says: "We're sunk," but Ma jest says:
"Somehow we'll git along."

So all our life it's been like that, We've had our ups an' downs, An' ins and outs and crosses too,

An' things t' give us frowns;
We never had a bank account
I' help us sing life's song,
But somehow, someway, like Ma says,

We alway get along.

The local merchant is the connecting lini between producer and consumer.

His contact with the buying public is direct, intimate and personal. He knows his customers, their likes and dislikes; why they buy one product and refuse on-other; why one brand sells more rapidly man others.

It may be assumed, therefore, the re-tail merchant knows the best way to pro-duce immediate sales in his locality, and it is significant that his basic advertising medium is the local daily newspaper.

In the first four months of this year the Canadian daily newspapers carried more than 40,000,000 lines of retail advertising—striking evidence of nationwide confidence in the value of the daily newspapers in Canada, as productive advertising media.

CANADIAN DAILY NEWSPAPERS

The manufacturer of any good product, who advertises it consistently in the daily newspapers can, in the course of time, make his product famous.

Everybody knows and uses products whose names are famous because of the vision, faith, courage and enterprise of the owners of them. They were not famous in the beginning, but more proceeded to make them "foust-warrenge of the product of the prod

Not Enough to Keep A Business Alive

WHILE OLD CUSTOMERS - steady customers are the backbone of any well-established retail business, they alone cannot be relied upon to make the business grow.

The forsighted merchant realizes the necessity The transpared merchant realizes the first of winning new customers, and uses space in his local newspaper to tell the public the lotest news about his goods and his store. Experience has shown that bright, newsy, trustful advertising in the newspapers is the most economical way to make new customers.

SWALLOW SONG Marjorie Pickthall.

O, little hearts, beat home, beat home, Here is no place to rest; Night darkens on the follen foam And on the fading West. O, little wings, beat home, beat home. Love may no longer roam.

Oh, Love has touched the fields of wheat, And Love has rouched the com,
And we must follow Love's white feet
Through all the ways of morn: Through all the silvery roads of air
We pass and have no care.

The silver roads of Love are wide,
O winds that turn, O stars that guide,
Sweet are the ways that Love hath trod
Through the clear skies that lead to God,
But in the cliff grass Love builds deep A place where wandering wings may sleep.

A place where wandering wings may steep.

IfMarjorie Pickthall, Canadian poetess, is noted for her simple but beautiful verses. It is Interesting to note that the above poem containing 122 words, has but one word of three syllables. Aspiring young writers of prose and poetry should take notice.).

A new type of tullp which is attracting the attention of all tullp lovers is the LLT-Flowered tullp. This manual tullp was probable by Davrin. It blooms settly, at the same time as the Gottage tullps. As shown in the Goderin-Group, the flower of the LLT-Flowered tullp is very lose and has a other all tullp is very lose and has a other all tullp. As out flowers the LLT-Flowered tullp is decidedly graceful. Gitness as most popular member of this new tullp group. It is a retains its vivid coloring until the pricials full. It is particularly beautiful.

COOD OLD DAYS?

Y OUR GRANDMOTHER PROBABLY LIVED IN A HOUSE LIKE THIS... PERHAPS YOU HAD MANY A GOOD TIME THERE AS A CHILD. BUT WOULD YOU WANT TO GO BACK TO GRANDMOTHER'S HOUSE — TO LIVE THERE NOW?

THE "GOOD OLD DAYS" WERE NOT GOOD; NOR WERE THEY EASY. THEY WERE CRUDE, INCONVENIENT AND UNCOMFORTABLE THEY WERE MARKED BY A WAY OF LIFE THAT MAY HAVE BEEN SATISFTING TO THOSE WHO LIVED IT, BUT SCARCELY BROADINING, WIGINIC OR ENTERTAINING.

GOOD OLD DAYS? THE TOWN'S RICHEST FAMILY LACKED THE SAFEGUARDS AND CONVENIENCES WE ALL NOW TAKE FOR GRANTED: ELECTRIC FANS, ADEQUATE RE-PRICERATION, RELIABLE DRUG PRODUCTS THAT THE DOCTOR CAN PRESCRIEE WITH SAFETY, CHAPT TELEPRIONE SERVICE, DAY AND INIGHT, NATIONALLY KNOWN DE-PRIDABLE PACKAGED FOODS, AUTOMATIC CENTRAL HEATING, CHIC POPULAR-PRICED APPACE, AND THAT GLORY OF MODERN ART, THE MODERN BATHROOM!

MANY THINGS HAVE MADE THESE BLESSINGS POSSIBLE — INVENTIVE GENIUS, PLENTIFUL CAPITAL AND THAT INSATIABLE DESIRE FOR "SOMETHING BETTER" SO PECULIAR TO CANADIANS BUT ONLY ONE THING HAS MADE THEM AVAILABLE TO EVERYSOOP, NORTH AND SOUTH, CITY AND COUNTRY, BANKER- AND WORKINGMAN ALIKE: LOW COST MANUFACTURE AND DISTRIBUTION CREATED BY ADVERTIMENT.

HEN YOU LOOK AT THE ADS IN THIS NEWSPAPER CONSIDER THIS FACT:
ALL OVER THE COUNTRY MILLIONS OF OTHER INFORMED MEN AND WOMEN ARE
READING ADS IN THEIR OWN LOCAL NEWSPAPERS, CHECKING VALUES VERY SIMI-

 ${f A}^3$ nd it is this uniform, nationwide demand, created and fostered by newspaper appertising that has made it possible for you to buy these Luxurious necessities at the low popular prices everyone can afford to

CONSIDER THIS, TOO! GRANDMOTHER MAD TO BE A SHREWD TRADER. NOT EVERY MERCHANT WAS TRUSTWORTHY IN HER TIME. BUT BECAUSE NEWSPAPER ADVERTISING IS UNIVERSALLY ACCEPTED AND BELLING. ADVIAGALLY BROUGHT ABOUT HIGHER STANDARDS OF BUYING AND SELLING. ADVIA GAD VERTISES DISCOVERED THAT UNLESS THERE TOODS WERE "AS ADMRTISSED" THEY COULD NOT HOLD PUBLIC CONFIDENCE AND TATALY IN BUSINESS. IN THIS WAY, VEWSPAPER ADVERTISING PROJECTS EVERY A'MAN AND WOMAN WAS BUYS. TODAY THE WATCHWORDS OF EVERY ADVERTISING MERCHANT ARE "DEPENDABILITY AND SERVICE". I FRIST, LAST AND ALL THE TWEEN.

DO YOU WANT PROOFF THEN CHECK EVERY AD IN THE ONTARIO INTELLIGEN-CER! YOU WILL FIND THAT EVERY ITEM ADVERTISED IS A REAL VALUE CÁLCULAT-ED TO MAKE YOUR BUYING DOLLAR GO FARTHER. MORE IMPORTANS, WHEN YOU PURCHASE ANY ARTICLE ADVERTISED IN THIS NEWSPAPER YOU WALL FIND BACK OF IT A REAL PLEDGE OF DEPENDABILITY, OFFENDABILITY THAT YOUR GRANDMO-THER OFFEN SIGNED FOR BUY SELDOM FOOMEN.

good."

In this day the longer weekend is growing in popularity and this may make more easy the introduction of such a change as the Gazette and the Financial Post of Toronto have been proposing.

Of all virtues and dignities of the mind,

Magistrate Mullims says he was not re-sponsible for her name not appearing on the charge sheet. The only stipulation he made was that he should not be on the bench when the case came to trial. THANKSGIVING

The common things of every day, The sunrise and the morning dew, The south wind whispering on its way, The fleecy clouds in skies of blue,

The singing stream, the limpid lake,
The autumn trees in radiant dress —
All these in thoughtful hearts awake
A spirit of true thankfulness.

For, God has made the mountains high,
The streams that sing unto this hasa,
And every wind that wanders by
Procloims his matchless majesty;
His glory, too, the skies declare,
The manning stars sing forth His proise.
Then for His love and wondrous care
Let us our thankful voices raise.

For strength to do the daily task, For love of home and kindred, too,

THE BELLS OF THE ANGELS

There comes to my mind a legend, a thing had half forgot,

And whether I read it or dreamed it—ah

well, it matters not; It is said that in heaven at twilight a gree

bell softly swings,
And many may listen and hearken to the
wondrous music that rings,
If he put from his heart's inner chamber all

If he put from his heart's inner commer all the passion, pain and string, the throb of the pulses of life,

If he thrust from his soul all hatred, all thoughts of wicked things,

He can hear in the holy twilight how the bell of the meals from:

of the angels rings;
And I think there lies in this legend, if we open our eyes to see,
Somewhat of inner meaning, my friends, to

Somewhat of inner meaning, my triends, to you and rite.

Let us look in our hearts and question: Can pure thoughts enter in To a soul if it be already the dwelling of thoughts of sin?

So, then, let us ponder a little—let us look in our hearts and see If the twilight bell of the angels could ring If the twilight bell of for us—you and me.

Glorifying the American Girl—what say?. $\frac{x}{x} \times x$ HERE'S A PLAINT FROM A CONFIRMED PEDESTRIAN: "I can conceive of no more dangerous spot for a pedestrian, or more trying on the nerves, than the intersection of Front and Bridge Streets. Trying to cross from the south side to the north side on the west side I stepped off the walk when the read light cross on only to be stopped by a stopped west side I stepped off the wolk when the red light came on, only to be stopped by .a motorist, who, coming from west, hesitated at the red light then stepped on the pas and shot around the corner in a right turn into front Seret, just missing me by inches. When he possed I started out feerfully again to be holded by a large American car tearing round the corner from Front Street south going west. He sure cut the comme dummy policemon was gone but he never even went near the base. Cut under vary again only to be halted by a string of corning from Front street him, furning west signin and) to be holted by a string of cost coming from Frost street north, huming west on Bridge Street. Before I got over finally the light had changed and cans were flying in all directions. Howe come to the conclusion that red means danger to the podestrian on that comes donger to the podestrian on that comer, only way you take it, and it is easier to get across safely, and quicker, or either yellow or green. I believe it was a mine which of teach regimented traffic and parmitted podestrians to guess where the next area was coming from. OLD TIMERS REMEMBER THE RICHE-LIEU AND ONTARIO NAVIGATION COM-PANY STEAMER which used to call daily at Bay of Quinte ports en route from Toronto to Montreal—and these steamers were recalled by a writer in Toronto Telegram. The Corin-thian, Magnet, Spartan, Corsican, Passport, thian, Magnet, Spartan, Corsican, Passport, Algerian, will be remembered by men and women who were lads and lassies when these boats were familiar as family friends. The lads in swimming used to watch for the Mail Boat as it was called and when its whistle was heard in the distance guess which boat it was. Most of the steamers were paddle-wheelers, Most of the steamers were paddle-wheelers, some had one stack, some two stocks, with a filigree between the stacks—all had distinctly suited marks, and the load could tell the name of the boat by these distinguishing marks. The greatest fun was swimming out to toke the swells and those paddlewheelers kicked up a lovely swell, believe you me, producing the grandest sensation as we tried to keep at the crest of the wave when we weren't down in the valley, and tried to keep the giant wave from breaking over us. Those were the hoppy days. Originally this line was called the Royal Mail Line and steam was raised by word have these foot stricts being

Does Not Remove Biggest Question Mark of Complicated Diplomatic Manacuvring — Will Hitler Join Other Nations in Territorial Guarantee to the Redelinected Czech States?—Speculation Rijes that Chamberlain May Retire After

PRACUE, Soph. 21 (AP)—The Carchoolovak government ansusced officially at 7:25 p.m. (2:25 p.m. ED.T.) today its acceptance of the BritishFrench plan for meeting the peace terms of Chancellor Hiller.

The decision came at the end of three days of fateful discussion of the proposals agreed upon by British and French lenders in Longon as the prize for maintaining peace in Europe.

The news of the capitalistion came to Caccadowska by radio brustlesses carried through techniquesters in the crowded streets of

Pragie.

• Growds in the main streets were in an excited mood and the suthorities were worried about the reaction of the Cacehs to the definite news that the republic faced loss of considerable territory. In the streets there were shouts of "rather war" and "we want a

lain be able to persuade Hitler to join other nations in giving a territorial guarantee to the redelineated Ceech state?

So far as can be learned here, Hitler has never committed himself to join Great Britain, France and other major powers in the windown and the Anglo-French personal guarantee which is one of the terms of the Anglo-French personal guarantee which is one of the terms of the Anglo-French personal guarantee with its one of the terms of the Anglo-French personal guarantee with its one of the terms of the Anglo-French personal guarantee with the sum of the Anglo-French personal guarantee guarante

There is a growing belief in some quarters here that Hitler—
having gained the Sudeten areas as he demanded—may overplay his hand, reach for the moon, and refuse to give a territorial guarantee. On the other hand he may be content with "rescuing" his fellow Germans, who, he has claimed, were being persecuted by the Crech

majority.

To persuade Hitler to join the other powers in a guarantee may be Mr. Chamberlain's biggest task at Godesberg. Only in that way can the Fuebrer demonstrate to the world his objective was tor patriate the Sudeten Germans and not to break up the Czech state.

THE OLD FALCON

She will not hunt again In the burnished day.
Loose from her foot the chain.
She will not seek the wood.
Or the Summer field.
Lift from her head the hood.

She is done with the cruel and bold, She is done with rapacious questing. With the light and luminous air And the terror of beak and claw. She will ride your wrist like a do Who once had dared the breastin Of hurricanes in the upper sky And the threat of the lion's paw.

Now the owl will sleep on the bough And life stir the grass in the meadow. There will be no sound of her bells Where the wild birds flutter and sing. For between the earth and the sun Has departed an evil shadow Of death that circles with sovage eyes And drops from a pointed wing.

So let her head go free Of its tufted hood. She will not rise to flee This hunter. Loose the jess. Her implacable foot Withers to quietness.

We still have to learn how to live with the automobile. Both as pedestrians and drivers we are much at the mercy of other drivers. At the wheel, we are also at the mercy of ourselves, when our driving skill is inadequate. And in a sense, we are at mercy of the machine, says the Rotar

Yes, we must not only make the high-way safe for others, but we must also make them safe for ourselves. We must learn how to drive with serenity Otherwise we are not driving the car. It is driving us.

ENDLESS PLAY IN CHESS

Although an ordinary chose game frequently lasts several hours anyway, a Princeton Professor showed how an unending game could be played that would never lead to vitorly or a draw. By the adroit application of the principle of dynamics, a devote of the sport could extend a single game for hundreds of years to the with nower. to the nth power.

or to the nth power.

This came out at the opening of the
American Mathematical Society's semicentennial celebration at Columbia Univercentennial celebration at Columbia Univer-aity. More than 500 delegates from the United States and Canada gathered to hear scores of learned papers read. Mathemati-ical formulae and new concepts of alge-braic derivations were expounded by lead-ers in the field, although the views ex-pressed were far too. involved for any but the best mathematical minds. heet mathematical minds.

Professor Marston Morse of the Institute of Advanced Study at Princeton, a coll-eagle of Professor Alert Einstein, describeagle of Professor Alert Einstein, describ-ed how mathematical principles, application to chess, have solved a problem that has been disturbing chess masters for years. He offered a paper on "A Solution of the Problem of Infinite Play in Chess."

Problem of artifice Ptp. in Chees."

The work of the minimum of accepted rules, a frage results if any sequence of move a repeated twice and is immediately followed by the first move of a third repetition. Chees players, Professor Morso observed, have believed that a situation that would result in an unending game is imposel, he may be a supposed to the problem of the problem of

By way of illustration, the example was cited; Clear the board on the time, and any of the control of the two pieces are control of the cont

Professor Morse said after the meeting that he was lecturing in Germany this Summer when three faculty members of

chess play for a long time but could not of THE RECORD solve it. With the sid of dynamic symbolism, Professor Morse supplied the solution

ism, Processor Moise supplied the solution in one hour.

"I don't play chess—I regard it as a useless loss of time," he remarked.

When Professor Morse's suggestion was brought to the attention of Herman Helms, brought to the attention of Herman Heims, editor of the American Chess Bulletin, he said no such eternal struggle had yet been attempted in a chess tournament, and that it would indeed present a new problem for committees in charge.

NOW THAT THE DREAD SHADOW OF WAR IS BECOMING FAINTER folks can begin to talk about it from a more or less detached viewpoint. All shades of criticism come from "The Man on the Street" as to what is supposed to be going on behind the scenes of the great diplomatic theatre, suppositious, facts, or a mixing together of grains of truth and error from various sources. Criticism, favorable and unfavorable as to supposed positions taken by Premier Chamberlain and his associates is freely offered, and the surprising thing of it all is the fact that Czechoslovakia of it all is the fact that Uzecnoslowania seems to have gained many friend overnight who hitherto could not prosoned and in the country was only vague ideas of where the country was on what manner of humans lived there. Most people can now spell and pronounce SUDETEN (SUDAYTON), who never heard of the place up to a short time ago. United States folks, of course, are in the many country of the country of th pers and have a good deal to say about how the issue should be decided. Thomas Richard Henry, Columnist, in the Toronto Telegram, discusses this phase of the situ-ation in the following sprightly fashion: To the people of the British Empire, the blessings of a continued peace seem to be

omewhat diluted because of a certain loss of prestige in acquiring it.

The horrors of war seem to be somewhat

forgotten in the sacrifices to avoid it.

For our part we are always willing to pay a high price for peace, even if we did expect Mr. Chamberlain to drive a better hargain than seems to be indicated at the moment. However, we don't know what may be in the Chamberlain mind— And Europe is not yet marching.

There are several sidelights in this busi-

There are several stochastics in this busi-ress that we find very interesting. For instance, we are interested in dis-covering how unhappy the United States is about the whole thing. Editorials all over the country bitterly denounce Great Britain and France for taking a firm attitude and defending poor Czechoslovakia by force of arms if

necessary.
We get the impression that the editors We get the impression that the editors of the United States would be willing to sacrifice every English soldier and every French soldier, every English pound and every French french, in defending a country created by Woodrow Wilson and an act of parliament. As a matter of fact, we are in sympathy with the idea.

We only think that if the Americans do

not choose to fight, they should not try to elect somebody to fight for them.
We are a little tired of John Bull being expected to look like Don Quistote.
It seems that 'Great Britain fell down badly and tota lot of prestige when she didn't defend Ethiopia against Musselli, when she day the didn't effect of the didn't elected somebody and the didn't elected somebody and the didn't elected somebody for the didn't elected somebody and the didn't elected somebody are didn't elected somebody and the didn't elected somebody are didn't elected somebody and the didn't elected somebody are didn't elected somebody and the didn't elected somebody and the didn't elected somebody are didn't elected somebody and the didn't elected somebody are didn't elected somebody and the didn't elected somebody are elected somebody are didn't e Czechoslovakia.

As we say, we are in sympathy with the U.S. ideas on aloofness. We have no desire to see Great Britain police the world. We would like to see her fight whenand only when—the Empire is in peril.

The local merchant is the connecting link between producer and consumer.

His contact with the buying public is irect, intimate and personal. He knows direct, intimate and personal. He knows his customers, their likes and dislikes; why they buy one product and refuse another; why one brand sells more rapidly man others.

It may be assumed, therefore, the re-tail merchant knows the best way to pro-duce immediate sales in his locality, and it is significant that his basic advertising medium is the local daily newspaper.

In the first four months of this year the Canadian daily newspapers carried more than 40,000,000 lines of retail advertising—striking evidence of nationwide confidence in the value of the daily newspapers in Canada, as productive advertising media.

THE EUROPEAN SCENE

The minds and souls of the people of mo races have been tried in these last days whe international events have occupied almost their entire attention. Statesmen have labor ed as never men have labored for the caus of peace and in the duties of their ornice on behalf of their countries. These men in the beholf of their countries. These men in the centre of affairs bear a burden which the ev-erage citizen does not understand and con-tribution of the countries of the countries of the of world politics which make it impossible that everything be told. It is to be hoped that soon the strain of the situation will lessen and that enough may be known of the situ-ciation to create a newest of confidence that peace now and in the future will be assured. Czechoslowskie is the storm centre. Some-

or August when men began to say "Beware September". Enough has happened already. Hitler's demands mode at Berchtesgoden where he was visited by Prime Minister Cham-berlain or one of the arrentees. where he was visited by Prime Minister Cham-berlain or one of the greatest missions in his-tory after an airplane flight from London, to the mountain retreat of the man whom the Germans today look on as their man of destiny, have been faced —the Czech Govern-ment decided under advice of Britain and to vield to the cession of the Sudeter area. Then came the resignation yesterday of President Benes and Premier Hodza and the Czech Cabinet, to be followed by plans for a new government. At the same time Prime Minister Chamberlain is meeting Hitler at Godesberg. This meeting is one of the most fateful in modern times. And the world awaits with breathless pause for news of ar

NEGLECTED AGE

No one to talk to all the day, The friends of youth are all away; No one to lend a listening ear The twice-told tales to kindly hear; No one to sit beside his chair The gossip of the day to share; For he is old and worn and gray And youthful days are far away.

The busy world it passes by Unheeding of his wisfful eye; Alone he dreams of bygene days. Alone he will be under the busy throng stops not to hear The busy throng stops not to hear The old-time tales he holds so dear; No one to talk to all the day For he is old and worn and gray.

Once he was stalwart, strong and wise, Ambition's fire gleamed in his eyes; With honest hand and courage strong He stood for right against the wrong; With honest hand and courage strong He stood for right against the wrong; And labored hard with brawn and brain And labbrea nara with brawn and brain His life's ambition to attain;
A kindly husband, father friend
The cause of right he would defend
But now he's old and in the way
With no one to talk to all the day.

O shame, that human hearts should spurm O andme, that Indian heats stroke span The love for which the aged yearn! How tenderly they need our care Our highest thoughts and aims to share! Perhaps sometime we'll be as they. Feeble and worn and old and gray With no one to talk to all the day.

BIG BUSINESS FROM SMALL ADS

Small newspaper advertisements, planned intelligently, used frequently, can boost sales for any advertiser. It all depends on how the job is done. Take Oakite, for example, whose merchandising manager, Mr. Conolly, says: "Results from our small space newspaper campaigns have been so satisfactory that we've increased our

newspaper appropriation each year." Oakite uses small newspaper advertisements steadily from January right through the year...as long range guns in their selling artillery and as shock troops to be sent in overnight when needed. Insertions vary from one, two, three or more times weekly depending on circumstances.

The pulling power of Oakite's small newspaper advertisements is shown in many ways. For instance, this year was the first time Oakite did any newspaper advertising during the month of January. Using the same size advertisements, retaining the same distribution, Oakite registered a 37% sales increase in January, 1938, over January, 1937...And sales have been climbing ever since.

Oakite, like so many other concerns, has found that newspaper advertising sells more goods to more people... quickly, surely, economically. That's what makes newspapers the primary advertising medium.

A Statement

TO THE BUREAU OF ADVERTISING:

"Oakite sales, for the first six months of 1938, are, to put it moderately, tremendously ahead of last uear, and in many territories the first six months, sales have come close to the entire last year's bush ness. We're looking forward to the largest sales year, in our historu.

"And this is largely attributable to our persistent use of small advertisements in newspapers... Results from our small space newspaper campaigns have been so satisfactory that we've increased our newspaper appropriation each year. This year it's 67% over 1937...and we're using papers from California to New York ... "

CHAMBERLAIN'S CLEAR STATEMENT

Typically British was the address of Prime Minister Chamberlain to the Empire on Tues-day evening. Six brief minutes only were required for the straight-forward peace-loving man who heads the government of the Empir in a crucial moment. In that speech one can read not only the course of British diplomacy in the past on the Czech crisis but also in the dim future course of events, whatever they may be. The statement from Mr. Chamberlain showed how Britain's was the way of peace and justice for all nations. Reports from Berlin say there is disappointment over the address. It was plain and concise and allowed no doubt of Britain's' attitude: The on Chancellor can see that, Chamber lain says Hitler's last demands are unreas-

WORLD'S EYES ON MUNICH

Yesterday's sudden lifting of the wer clouds from Europe in the announcement of a four-power conference to be held at Munich today showed where the thoughts of the people of the nations rested—they want peace; they feel that as the British Prime Minister said there is no basis for a conflict because the issues at stake over Czechoslovakia can be settled in a brief time if left to statesmen. demonstrations in various countries made

One thing stands out clearly in this. It has been revealed that all the democracies think the way of peace. President Rossevelt's message to the powers and his last message to thiller had an influence in this letest development. Whether Italy gave signs of likely to be neutral in a conflict is not known but there is some opinion that this not known but there is some opinion that this some that he had been some if promittings thould break. might be the case if hostilities should break out.

ONE INDICATION THAT WAR IS IN THE ONE INDICATION HAT WAR IS IN THE OFFING is manifested in the number of Ger-man spy stories being banded about as gospel truth arid the anti-German feeling being gen-erated among humans who hate war and de-spise anyone who furnishes sparks for the conflogration of war.

TWO FEW PRIENDS

The alert Shelby (Ala.), Democrat reports the case of a man who was defeated ignomin-iously when he ran for the office of sheriff. He got 55 votes out of a total of 3,500, and the next day he walked down Main street with two guns hanging from his belt.

"You were not elected, and you have no right to carry guns," fellow-citizens told him.
"Listen, folks" he replied, "a man with no more friends than I've got in this country needs to carry guns."

GLADIATORS

A traveller spinning the yarn as only tra-vellers can, said: "From the boat the river looked alive with gladiators."

A long-suffering listener asked: "Alive with what?"

"Alive with gladiators."

The Show Windows of the Nation

The merchants of Canada have played an important part in national development. They were in the vanguard of colonization; their business is the axis on which modern trade and commerce revolve.

Every merchant's progress and the value of his service to the community have depended at all times on his ability to keep prospective customers informed of the kind and quality of the goods he could supply. Advertising has been essential to the profitable conduct of his business.

The efficiency of the local daily newspapers as advertising media has been demonstrated more and more conclusively as markets have expanded and the variety of competitive goods has increased. Today the most successful merchants are those

who advertise their products consistently and frequently in their local newspapers. They know the newspapers maintain an intimate contact with every home and that every consumer depends on his daily newspaper for reliable information concerning goods and services available.

Consequently, the advertising columns of the Canadian daily newspapers have become, in a very real sense, the show windows of the nation. They influence the purchases of more than two million families every day.

LIFE'S JOURNEY

Each man is Captain of his Soul, And each man his own Crew, But the Pilot knows the Unknown Seas,

And He will bring us through. We break new seas to-day— Our eager keel quests unaccustomed waters, And from the vast uncharted waste in front

The mystic circles leop To greet our prows with mightiest possibili-

ties: Bringing us-what?

Dread shoals and shifting banks?
And calms and storms?
And clouds and biting gales? And veck and loss?
And wallont fighting times?
And wallont fighting times?
And maybe death—and so, the Larger Life!
For should the Pilot deem it best
To cut the voyage short,
He sees beyond the skyline, and

He'll bring us into Port.

And maybe Life—Life on a bounding tide,
And chance of glorious deeds;—

And help swift-borne to drowning mariners;

Of these this discontine by the color.

Of cheer to ships dismontled by the gale; Of succours given unasked and joyfully; Of mighty service to all needy souls.

If mighty service to all needy souls.

So—Ho for the Pilot's corders,

Whatever course He makes?

For He sees beyond the skyline,
And he never makes mistakes.

For each man capitains his own Soul
And chooses his own Crew.

But the Pilot knows the Unknown Seas,
And Mean He will be him out through. And He will bring you through.

This was considered likely to be a central point in parliamentary debts this week.

Lars November Britain decided to start a detailed investigation of Germany's colonial claims. In the light of references made to the question when Mr. Cambertain saw Hilder in Godenberg Sept. 22 it seemed likely flatian and France might pursue this study with a view to solving the problem peacefully.

(Continued From Page One)

The spokeman went on to tyrue a contrition that Caech-slovakia could be made by the four powers into a completely neotral side and guaranteed state. He envisaged also a strong, purely Caechoolovak state, "shorn of the people it can not govern." This reference was to troubleome Polish and Hungarian misoridis. This state, he said, must be one which distorts no emity tower any other power. That, of course, meant that the guarantee system as proposed under the four-power plan would replace Caechoolovakia's precent system of ullimoze.
